Al-Quds Foundation- Malaysia warns from the temporal and spatial partitioning of al-Aqsa Mosque and calls the Muslims to defend it

Al-Quds Foundation- Malaysia is following with concern the brutal actions by the occupier Zionists towards Al-Aqsa Mosque. The Israeli occupation storms Al-Aqsa every day and surrounds it with security checkpoints especially inside and outside the Old Town, in addition to fire sound bombs, live bullets and rubber bullets inside the mosque which caused number of martyrs and injuries and arrested others.

The continuous storming-calls of Al-Aqsa Mosque and Jerusalem by the extremist Zionist groups reached a dangerous phase where the settlers asked to open a special door for them to pass to Al-Aqsa, as it the first step for temporal and spatial partition through allow the Jews to enter Al-Aqsa every day in a special hours, which means prevent the Muslims from entering Al-Aqsa during the Jews time.

The Israeli occupation authority is seeking, through this step, to impose a fact on ground that looks like what happened in Ibrahimi Mosque, where the occupation divided it between the Muslims and the extremist Zionists. The Muslims are prevented from entering the Ibrahimi Mosque during the time of the Jews.

The trustees of the Temple Organization, the most extremist, led by the terrorist "Jarshon Salmon" calls to storm Al-Aqsa Mosque this week to celebrate "Throne Biblical Holiday" inside Al-Aqsa Mosque, and to organize a protest and ask the Israeli policemen to protect all Jews who want to go to Al-Aqsa to pray and act their Biblical rituals.

The extremist organization added in the statement that "this protest will be protected by the policemen, please don't be late, we will meet in the Buraq Yard. Wake up Jews and come with us. Today, the crucial phase began and dozens of settlers and Israeli soldiers will storm Al-Aqsa from Bab Almaghareba side, the storming will start on Sunday until Thursday".

Within these brutal Zionist actions against Palestinian people, Al-Aqsa Mosque and Jerusalemites, Al-Quds Foundation- Malaysia calls to:

1- Deny the storming of Al-Aqsa Mosque by the Israeli oc-

cupation who still keep Judaizing Jerusalem within studied plan and approved by the political levels in the occupation entity in order to evacuate the Jerusalemites from their city and to Judaize Al-Aqsa Mosque to establish their "Temple".

2- Al-Quds Foundation- Malaysia warns from the continuous brutal actions against the Palestinian cause, and to assure that the Zionists are the occupiers and aggressors to the Palestinian holy lands according to the International law and regulations.

At this time, the world is establishing a coalitions against organizations which sees it as "extremist" while the same world is doing nothing to the Israeli violations that break down all International regulations and without being stopped.

4- Al-Quds Foundation- Malaysia calls the Islamic and Arab world and the free world to organize global events to stand with the Palestinian cause, and to protest widely to reject the violation against Al-Aqsa Mosque and Jerusalemites and to deny Judaization actions in Jerusalem and Palestine.

5- al-Quds Foundation- Malaysia calls the Islamic and Arab leaders to carrying out their responsibilities towards the first issue of Ummah by prosecuting the aggressors legally and internationally and work on to stop these violations and storms against Al-Aqsa Mosque, and end the repeated attempts to demolish and Judaize it and evacuate the Muslims and Jerusalemites from the holy city.
